SHIPPING.
ROYAL MAIL
Steam Packet
Company's Agency,
For British Columbia & Vancouver Island.
OFFICE, MACDONALD & CO., BANKERS,
Yates Street.
THE ATTENTION OF SHIPPERS and passengers is particularly directed to the superior facilities the Royal Mail Steam Packet Company's Line affords for the speedy conveyance of Treasure, Goods and Passengers to and from England to British Columbia and Vancouver Island, in connection with the Pacific Mail Steamship Company's Vessels and the Panama Railroad.
The superiority of the accommodation and entertainment on board the Royal Mail Steamers, together with the time occupied on the passage between England and Aspinwall direct being so much shorter than by any other route, and the moderate rate of passage money, render this Company's steamers the CHEAPEST AND MOST EXPEDITIOUS MEANS OF TRANSIT, for passengers or for the forwarding of Goods and Treasure from Aspinwall to Europe.
Under an arrangement with the PACIFIC MAIL STEAMSHIP CO., Specie and Bullion can be conveyed to London and Havre in France
Further information on the subject of Freight and Passage Money will be furnished by the undersigned.

RECEPTION
—OF—
GOV. KENNEDY.
The following Programme for the day of the reception of GOVERNOR KENNEDY has been approved, and it is particularly requested that so far as practicable the course laid down be adhered to by all who desire that a becoming reception be given to our newly-appointed Governor the day he arrives. The Marshal of the day, W. J. McDONALD, Esq., will have sole direction of the order of procession, whose orders directly or indirectly through his Assistant Marshals it is to be hoped will be cheerfully complied with.
(Signed) THOS. HARRIS,
Chairman of General Committee of Management.

THE PROGRAMME!
—FOR THE—
RECEPTION OF GOV. KENNEDY.
As soon as ascertained that the Governor is on board of the Steamer, the Colonial Secretary will proceed to Esquimalt in a Coach and Four to receive His Excellency and Family. This coach to be placed at the disposal of the Ladies, who will be driven to the St. George Hotel. The Colonial Secretary will accompany His Excellency around to Victoria in the Gunboat, with the officers of the Fleet and no others.
Upon the Gunboat with his Excellency on board entering the harbor a Salute to be fired and answered.
SIGNAL FOR ALL TO ASSEMBLE:
The Ringing of the Union Hook and Ladder Company's Bell.
PLACE OF RENDEZVOUS:
All public bodies and citizens to rendezvous at the junction of Yates and Government streets, form into line, and proceed to Messrs. Dickson, Campbell & Co.'s wharf, Store street, to receive his Excellency on landing.
ON THE ARRIVAL.
On the arrival to a point on Store street the Band will open, and each succeeding pair will proceed and open to allow the succeeding members of the procession to pass through.
The respective Societies to choose their own form of arrangement in the line of march.
On landing the Colonial Secretary will present the Chief Justice and His Worship the Mayor to His Excellency, who will escort him to the carriage in waiting in the line of procession; and to be accommodated in the carriage by the Colonial Secretary, the Senior Officer of the Fleet, and the Mayor.
The procession will then move towards James Bay—along Store street to Johnson, thence to Wharf street, along Wharf to Yates street up Yates to Government, along Government to James Bay.

To Advertisers & the Public.

THE DAILY BRITISH COLONIST, published every morning (Sundays excepted), is the largest and most widely circulated journal in Her Majesty's Possessions on the Pacific.

Resident Subscribers may have the same left at their residence at 25 cents per week, by furnishing their address at the Office of Publication.

THE WEEKLY BRITISH COLONIST, published every Tuesday, will be mailed or left at the residence of Subscribers, ready for mailing, at 25 cents per week, payable to the carrier.

JOB PRINTING.

THE BRITISH COLONIST PUBLISHING COMPANY having received a large addition to their stock of new and beautiful Jobbing type, will execute orders to any extent with neatness and despatch, at a slight advance on San Francisco prices.

TO-DAY BEING GOOD FRIDAY THE COLONIST WILL APPEAR ON SUNDAY MORNING INSTEAD OF TO-MORROW.

THE MINING NEWS.

The news which we published yesterday from Cariboo and Shuswap is exceedingly satisfactory, and goes to prove how infantile is still the condition of the resources of the neighboring colony. Several "rushes" had taken place to McArthur's and other "gulches," whose auriferous deposits were supposed, from the prospects obtained, to be highly remunerative. That town lots had been taken up in every direction, and squatters had located so inconveniently close to the mouths of shafts as to make a resort to the Gold Commissioner necessary, is sufficient evidence of the intensity of the excitement. Richfield is also the centre of considerable agitation, and the edifice of justice, if not shaken to the ground, as is sometimes the case in lawless communities, is at least to be undermined, and that by a community of industrious and peaceful men. So much for the interestingly anomalous condition of a gold mining community.

Much, however, as we may be inclined to rejoice over this news from Cariboo, just as the winter is about closing, we think there is even a greater source of gratification in the fact that the Shuswap bids fair to turn out a remunerative gold field. We are careful to take all the accounts received from the mines with certain grains of allowance; because we know how the most intelligent may be readily deceived by partial knowledge; and therefore when we find a statement to the effect that $5 a day can be made with the rudest implements almost anywhere, we are rather inclined to accept it reservedly. Taken as a whole, however, the Shuswap news gives us this assurance—that a poor man can find a much more lucrative field of operations here than in Cariboo, and that a "poor man's diggings" — the great want which has been felt in British Columbia since the days of Lower Frazer celebrity—is at last a *bona fide* reality; Cariboo has been heretofore the all-absorbing centre of attraction, and the rest of the country has been as much a sealed book, and as much neglected, as if it did not really exist. The present excitement in the Shuswap region will happily tend to put an end to this unhealthy species of centralization, and a well-grounded rational hope may be formed that before the end of the present year the mineral regions of British Columbia will be sufficiently diversified in their character to suit all classes of our population—the poor miner as well as the rich—the Indian and Chinamen as well as the more energetic and civilized races.

The advantage of these lucrative diggings to the man of small means can scarcely be overrated. They would, in case they prove of considerable extent, be of infinitely more importance to both colonies than twenty Cariboos; and the reason is obvious:—In Cariboo the lottery is a desperate one; and it may be safely said where one man makes a fortune twenty accumulate nothing. This, however, is not all. The very large "strikes" we are occasionally chronicling, in nine cases out of ten, leave the country poorer than before. The miner who makes his "pile" also makes his 'tracks,' and some other land receives his presence and his gold. In the meantime the unlucky digger is left to get into debt with the storekeeper, and curse the country and his fate. The principal benefit, therefore, which is derived from mines like most of those in Cariboo, is startling with their enormous individual yields, populations at a distance, and inducing the adventurous to come to our shores. So far, this is a valuable function, but it is a much more beneficial service to retain this population when it reaches the country.

With extensive mines of the Shuswap description, we shall not only have a population working all the year round, but the money which is taken out of the soil will be, to a great extent, expended on the top of it. The agricultural resources of this part of British Columbia are of the highest order, and we may expect to find in a little time the occupation of farmer and miner grow up together. No circumstance, however, in connection with the mines can be more encouraging than the fact that a man can live upon them for a dollar a day; the risk becomes, therefore, comparatively speaking trifling, and the circumstance will, no doubt, induce hundreds to try their luck, who are unable or unwilling to test fortune in the more distant and expensive Cariboo. The advantages of Shuswap by no means end here; for as the occasional rich yields of Cariboo have generally the effect of inducing the lucky miner to discard digging and leave the mines, the smaller but more steady remuneration of the better distributed gold fields tends to fasten a migratory population more firmly to the soil. The vocation as it becomes steadier also becomes more permanent, and the miner, outside that injurious excitement which always characterises a locality where the risk and the prize are in the extreme, enters into a condition every way more profitable to himself and more beneficial to the country. The representative members of the British Columbia Council have shown themselves alive to the importance of extending the knowledge of that colony's mineral resources outside the boundary of Cariboo. Every inducement therefore that can be possibly offered by a Government, and every facility that can be afforded by the resident population of the neighboring colony will, we feel assured, be put forward during the spring to encourage mining enterprise in the Shuswap District. Nothing we are convinced will tend more to settle up either this colony or British Columbia than the discovery of such diggings for the man of limited means, and from what we know of the neighboring colony we feel confident we are only slowly emerging from the infantile ignorance which has so long shrouded our knowledge of its vast and diversified resources.

NOTICE.

I HEREBY GIVE PUBLIC NOTICE that I have sold and transferred to Donald McBride all my right, title, and interest, to the Stock in Trade of the Victoria Hotel, on Government street, Victoria, and I have authorised the said Donald McBride to receive all Book Debts now due to me.

All claims against me must be presented for payment before the 1st April, as I intend leaving the Colony.

CHARLES McHARDY.

WHISKY SELLING.—Peter Jewel was yesterday charged before Mr. Pemberton with supplying spirits to Indians, and Jacob Fresh with suffering the sale. Officer Witmer stated that having received information that the prisoner was in the habit of supplying spirits to Indians, he and Sergt. Hill gave five marked coins to some Tsimpsean Indians and secreted themselves near the residence of the accused. The Indians took a small empty barrel covered with a cloth, to the house and knocked at the door, depositing the barrel in sight of the officers. The man Fresh came out and looked around, Jewel then took the barrel to the Rock Bay House and brought it back and went into the house with the Indians, the latter then returned with the barrel. On ascertaining that it contained spirits they arrested the prisoners and searched the house, where they found several bottles of whisky. On searching Jewel two of the marked coins were discovered on his person. Sergt. Hill corroborated the officers testimony, both of whom were cross-examined by Mr. Wight for the defence. The next witness called was a Songish Indian who spoke English; on being questioned by the magistrate as to the nature of an oath the witness replied that he believed "if he told lies he would go to the devil." (laughter) This witness proved the purchase of the spririts from the prisoner. Mr. Wight said after the evidence adduced he should not take up the time of the court by protesting the innocence of his client, who threw himself on the mercy of the Court, he would only draw attention to the fact that although the officers had been watching for three months they had been unable to prove any offence against his client until now. The magistrate fined Jewel $50, and discharged Fresh, there being no evidence to show that he was present at the sale. The fine was paid.

BODY FOUND.—The body of a white man, who had apparently been drowned about two months ago, was discovered on the beach at Hawk Bay, a day or two after, by an Indian belonging to Mr. Tod, of Oak Bay. The Indian, it appears, reported the circumstance to Mr. Tod, who made him bury it, but omitted to report the circumstance to the police authorities. Since that time, however, dogs or wolves had scratched up the body and laid it bare. Information having been given to the superintendent of police, officer Ashton was sent to the spot, where a disgusting sight presented itself. Owing to the emaciated state of the body, identification is rendered a difficult matter, but everything belonging to the deceased has been carefully preserved, and the remains have been conveyed to the dead-house, where they will remain until 3 p. m. to-day, to await identification and the coroner's inquest, which is to be held at the Boomerang. The Siwashes express their belief that the deceased was a King George man, who had been drowned out at sea.

THE COW CASE.—In this matter, the magistrate yesterday threw out a hint that in the event of the prisoner Wm. Ross being guilty the payment of the value of the cow to its late owner might affect the judgment. Mr. Wight replied that all that could be done had been done. His client was quite willing to give reparation for a civil wrong which he conceived this to be, but as a criminal wrong it could not be compromised. The evidence of Supt. Smith was then taken which tended to show that the mother of the accused, about Christmas last, had made a different statement to the evidence lately given by her in the court. When asked if she knew anything of the circumstances, she declared that she had never given Ross and Kitson permission to kill the cow, and that the animal did not belong to her. Wm. Mann and Wm. McNeil were also examined, and the prisoner was further remanded.

DISORDERLY CONDUCT.—Chas. Wilkes, was yesterday charged on the Police calender with violently assaulting the officer in the discharge of his duty. Officer Coulan deposed that he met the prisoner in the forenoon on Government street, and as soon as he saw him (the officer) he commenced using the most obscene language towards him. Coulan told him not to do so in the presence of women and children, and he then squared up saying "you ——— I'll cut the ——— stripes out of you," at the same time striking the officer on the side of the face. Coulan proceeded to arrest him, when he kicked the officer several times on the chest. Wilkes in defence said he was very drunk, and was not addicted to such conduct. The magistrate ordered him to pay a fine of $10, with the option of one month's imprisonment.

BURGLARY ON DISCOVERY ISLAND.—The four Tsimpsean Indians who were arrested in British Columbia by officer Macnamara and sent to Victoria by the Enterprise on Wednesday evening, were yesterday brought before Mr. Pemberton charged with committing a wholesale burglary on the premises of Messrs. Jay & Co. on Discovery Island about a fortnight ago, and were remanded till Monday next for further evidence. The charge against these prisoners is a serious one. It appears that finding no person on the premises they broke open the door and completely gutted the house, carrying away several guns, rifles and revolvers, blankets, clothing, house and kitchen furniture, crockery and glassware, provisions, groceries, a telescope, a watch, and numerous other articles.

PUBLIC HOLIDAY.—To admit of the employés in our establishment participating in the general holiday on this day (Good Friday), no paper will be issued from this establishment to-morrow. Our subscribers will, however, receive the COLONIST on Sunday morning.

DARING BURGLARY.—On Wednesday night some burglars effected an entrance into a public house on the Esquimalt road and before the inmates were aroused succeeded in securing the contents of the till and some bottles of spirits, with which they escaped through a window.

THE ALBERNI MINING CO.—The sloop Random is now lying in the harbor waiting for a fair wind to sail for the location of this company, with a load of supplies. She will also take up five workmen.

☞ In consequence of the Easter Holidays there will be no Supreme Court until Thursday next.

☞ Willis Bond was allowed until Monday next to repair damages to Mr. Copland's fence and trees.

SUMMARY COURT.

March 24th, 1864.

Storey v. Cording & Co.—Dennes for plaintiff. Defendant did not appear. This was an action for $250 for money deposited with Messrs. Cording & Co., the assayers, for safe keeping. The deposit note was produced and the defendants not appearing, judgment was given for plaintiff. The defendants were stated to be out of the jurisdiction.

Suter v. Stewart & Co.—This was an action for $242 damages for wrongful discharge. Park. instructed by Dennes, for plaintiff, Green for defendants.

Suter says—On the 29th October last, I was engaged by Mr. Stewart as a clerk and book keeper. There was no salary mentioned. I was discharged on the 24th of December without any warning. Mr. Munro and Mr. Stewart engaged me. Mr. Munro stated that I was connecting myself with a young house and enlarged upon the brilliant prospects which were opening before me. In consequence of what he said I gave up my intention of going into business. I heard nothing from Messrs. Stewart & Co. about leaving until the day I was discharged. On that morning a young man was invited inside by Mr. Stewart, and I was asked to show him the books. I asked Mr. Stewart to step outside and explain the matter; he said he had explained it before, and asked me to come into the office and he would pay me the balance. He presented me an account which was incorrect, and I at once objected to it and returned it. I then told him he might discharge me immediately. I was entirely unable to procure employment of any kind at that time. I have been in business as an accountant since.

For the defence:

J. R. Stewart says—I hired Mr. Suter on the 29th December; no time was agreed upon; I agreed to give him $60 a month; I did not discharge Mr. Suter on the 18th December. I gave him notice that I should not be able to give him employment when Mr. Adamson came down. Mr. Adamson came on the 24th of December. Mr. Suter refused to show the books to Adamson and refused to write out an invoice which was required of him. I then told him if he wished to leave he could and I would pay him his salary up to the date.

His Honor in giving judgment said that it was clear that there was an agreement for hiring, and the law is that in cases of this nature parties are not hired by the month but by the year, and consequently the plaintiff was entitled to six months' notice. The judgment would be for the amount claimed less $89 admitted to have been received.

De Wolf v. Fadarro.—This was an action for $180 for medical attendance, baths, medicines, etc. Green for plaintiff, Drake for defendant.

The defendant paid a sum of $50 into court and disputed the amount claimed by the doctor, although she admitted that she had been cured under the plaintiff's treatment.

Plaintiff and his wife were examined for the plaintiff, and the defendant and Mrs. McGee for the defence.

After hearing the attorneys on both sides His lordship said he considered that the plaintiff was entitled to more than the sum paid into court, and gave judgment for $75 with costs.

Court adjourned to Thursday next.

HOUSE OF ASSEMBLY.

THURSDAY, March 24.

House met at 3:15 p.m. Members present, Messrs. Young, DeCosmos, Powell, Franklin, Tolmie, Foster and Bayley.

INCORPORATION BILL.

The House went into Committee on the Incorporation Bill, Mr. Bayley in the chair.

The following clauses were passed:

VACANCIES.—Sec 40. In case of the death, bankruptcy, insolvency, resignation, or permanent absence for the space of three consecutive calendar months from the Colony, of the mayor for the time being, or in case the mayor shall decline to accept office, or neglect to take the necessary oaths, the Council shall choose one from their number to be chairman, who shall preside at the meetings of the council, and shall have the same powers, duties and privileges, and be subject to the same liabilities and responsibilities which the mayor would have had and been subject to, until the next annual election.

41. In case of the death, bankruptcy, insolvency, resignation, or permanent absence aforesaid of any one or more of the councillors, or in case of a councillor neglecting to take the necessary oath of filling such vacancy in the office of mayor, as aforesaid, a new councillor shall be elected to fill the vacant office until the next annual election.

42. The mayor or presiding councillor shall within three days from such vacancy, notify the sheriff thereof, who shall within six days from the receipt of such notification, fix the day for the nomination and election of such new councillor, and the nomination and election shall be held in manner aforesaid.

VALIDITY OF ELECTIONS.—Sec. 43. The validity of all contested elections shall be tried before the Chief Justice in manner following:

Any voter or candidate may present a petition to the Supreme Court, praying that the election of any Mayor or Councillor may be void on either of the following grounds: By reason of bribery, intimidation, or undue influence, by reason of such mayor or councillor not having obtained a majority of the votes of the duly qualified electors, by reason of such Mayor or Councillor not possessing the necessary property qualifications, or being under some disqualification, as aforesaid.

44. The petitioner shall in each case give such security for costs as the Court shall direct.

45. The order of the Chief Justice on the said petition shall be final and conclusive, and may contain all necessary directions for the holding new elections or otherwise as may be requisite.

46. The Chief Justice may, from time to time, make rules for regulating the trial of such petitions and the matters and things connected therewith.

47. The Council shall hold its ordinary meetings openly, and no person shall be excluded except for improper conduct

48. A special meeting may be open or closed as, in the opinion of the Council, expressed by resolutions in writing, the public interest requires.

49. The Clerk of the Council, or in his absence, the Sheriff shall within seven days from the day of election summon the Council to meet on a day not more than fourteen days after the day of election at some place to be mentioned in such summons.

Clause 50. Mr. Young introduced a clause providing for the drawing up of an alphabetical list of voters on the first day of July in every year, which list, after being properly revised as provided, shall not later than the 1st of October be exhibited outside of the post-office and outside the city council chambers; also providing for the inspection of said list by qualified voters, &c. Clause passed.

PROCEEDINGS OF COUNCIL.

Clause 51, providing that the quorum of the council shall consist of four members, and that the Mayor, or in his absence, a councillor chosen by the council shall preside, and shall have the casting vote; also that the minutes of meetings shall be open to public inspection on payment of 25 cents.

52. Previous to the introduction of any business at any meeting of the council, a notice in writing of any business proposed to be brought forward by any member shall be publicly exhibited for 24 hours previously to such meeting in some public place to be agreed upon by the council.

53. Previous to any meeting of the council other than adjourned meetings a notice of the time and place of such intended meeting shall be given three clear days at least before such meeting by fixing a copy of the said notice at the council chambers, and such notice shall be signed by the mayor, who shall have power to call a meeting of the council as often as he shall think proper.

54, providing that if the mayor refuse to call a meeting at the request of any three councillors, said three councillors may call such meeting provided that three clear days' notice of such meeting be given.

55. The council may out of their own body from time to time appoint such and so many committees and consisting of such members as they may think fit for any purposes which in the discretion of the council would be better regulated and managed by means of such committees, but all proceedings of such committees shall be subject to the approval of the council.

POWERS OF COUNCIL.—56. The council shall have power to make ordinances for any of the following purposes:

The prevention and removal of nuisances within the city.

The regulation of traffic through the thoroughfares within the city.

To regulate the maintenance and repair of the highways, footpaths, public wharves, and bridges, situated within the city.

To establish a city pound.

To provide for the inspection of diseased and unwholesome cattle, meats, poultry, fish, and vegetables, and to prevent the sale or exposure of the same.

The Committee rose and reported progress, and the House adjourned, to meet again on Wednesday next.

THE WATER COMPANY BEFORE THE PRIVATE BILLS COMMITTEE.

Yesterday the proprietors of the Water Works, Messrs. Coe & Martin, and their agent Mr. Cranford, were examined as to the extent of the supply of water at Spring Ridge. Mr. McCreight, instructed by Mr. Green, for Water Company, Mr. Wood for the objector, Mr. Tiedeman.

John Coe sworn [examined by Mr Green]—Was one of the parties who commenced the water works in Spring Ridge in March, 1863; had found plenty of water at twenty-six feet deep, so much so that all the carts in town only lowered the reservoir 3 or 4 inches; the company had pumped as much as 200 gallons a minute, day and night, for about a month, without any perceptible effect on the supply. Judging from the quantity of water taken by the carts, 100 barrels or 10,000 gallons per day, which we can supply in three hours pumping, I think we can supply all the town from the springs.

Cross-examined by Mr. Wood—Have had much experience in water works; had taken water from springs in Sonora in a similar position to this; had also been engaged in New Jersey and elsewhere; had made a shaft and a drift into the basin where the wells are situated at Spring Ridge; had not made any further examination of the basin; found the water of the best quality—pure as crystal. The quantity of water would be sufficient to supply the town in case of fire; they could keep the tanks always full.

Examined by Mr. McCreight—The company had about 9000 feet of pipes already laid.

Mr. Wood asked through the chairman, by whose authority the pipes had been laid down?

Ans.—By a charter from the council.

The Chairman—By what you imagine to be a charter. Do your pipes run through any other property than that of the city and your own private property?

Ans.—I believe not.

By Mr. McCreight [through the Chair]—In case the supply runs short, what means have you of obtaining a further supply?

Ans.—We have permission from the H. B. Co. to run a drift round the back of the hill; we also intend to make a cut into the basin and bore down from there.

By the Committee—The depth of water in our shaft is 10 or 12 feet; believe there is a basin under the hill, the water in which the believed came from a higher source, a lake or some other place; it may be supplied in part by rains; had pumped 12 hours constantly from the shaft, at the rate of 120 gallons per minute, and only lowered the water 2 or 3 inches; at a certain point we found that we could not reduce it any further; had no plan of the different strata found while sinking the shaft.

Mr. J. P. Cranford sworn [examined by Mr. McCreight]—Had been connected with the Water Works Co. since last November, believed that at the present time there was a supply of water for 50,000 inhabitants; during December last, in drifting, the company found that even by working the engine day and night they could not keep out the water, and were obliged to abandon the drift; they worked several days and nights in succession; they were pumping from the well out of which the city is now supplied. In the latter part of November and first of December, the supply was not so great; at that time the water carts were taking from 150 to 200 barrels per day, and Coe and Martin were constantly pumping their well dry, and taking out about twice as much as the carts. He would show a diagram which would illustrate some facts, which led him to believe that the supply of water was derived from some foreign source. They had partially explored Spring Ridge, and found that it consisted of a deposit of gravel and sand overlying a stratum of trap rock. At some distance from Coe and Martin's well, the water overflows and forms the springs; it appears to overflow a rim of bed-rock and clay, within which this bed of gravel lies. In the dry season the water ceases to flow over this rim, and the wells are said to become dry. By sinking another well, a few feet deeper, plenty of water had been found to supply all the water carts. A singular fact was that the water was scarcest in November after the rains had begun, which led to the inference that the supply was not derived from rains. 9000 feet of pipes had been laid down through the city, through a road outside the city and through Coe & Martin's own land. About $22,000 had already been laid out by the Water Company Under the water cart system the quantity of water used in the city was 7000 or 8000 gallons per day, as supplied by Coe & Martin since January 1864; that would be about 1½ gallons per head; the usual consumption of water in cities is about 20 gallons for each soul.

Cross-examined by Mr. Wood—Was an agent for the Company; was not a practical man in these matters; no engineer was employed in the business because they did not think it necessary; the existence of the rim rock round the basin was proved by Mr. Martin and his men; did not know that the season in last December was especially wet; a block shown on the map contains the public springs; knew that the rim of the basin was in some places rock, and in others clay; had had no previous experience of laying pipes; had found that in the main, the system of pipes was successful. The pipes occasionally burst, but were easily mended; the same system had been used in Portland since 1856 and had been found quite successful; the cost of the pipes laid down in the streets would be about 27c per foot; did not know the exact difference of cost between iron and wood pipes; his attention had been called to the requirements of the city in regard to fire, and he had come to the conclusion that there was an abundant supply of water during at least ten months of the year for all the wants of the city of Victoria; for the other two months it would perhaps require another season to test the supply.

Re-examined by Mr. McCreight—The bore of the pipes was 6 inches; a 6 inch pipe with 30 feet of fall would deliver 340,000 gallons in 24 hours; in this case the fall was greater than 30 feet, and therefore the delivery would be greater; the fall from Spring Ridge to Government street was about 45 feet; every additional 10 feet of fall increases the delivery of water in very great proportion; at 20 feet fall the delivery would be only about 100,000 gallons in 24 hours. The intention of Coe & Martin was to bring in all the Spring Ridge water first, as being the best, softest and purest; after that, they proposed to lease some ground from Mr. Pearse, where there were springs, and form there a natural reservoir, the water from which would be brought to these pipes through a filter, or they might adopt Mr. Coe's original plan, and bore an artesian well, or still further, they might go to Elk Lake.

By the Committee—The shaft may affect the public springs, but I have not heard the watermen complain, as they now get all their water from Coe & Martin; there is no engineer's plan by which the company is working; did not know of any plan of the levels or angles of the streets having been taken; was not aware of the different angles in the streets between the springs and the city; the volume of water at the Springs would amount, roughly, to 150,000 galls daily, with the small engine now in use; the works were under the supervision of Coe & Martin; the city engineer was occasionally consulted in matters connected with the streets; there was no government supervision except that of the mayor and city engineer; had no doubt that they would give a certificate that the work had been properly carried on.

Thos. Martin, sworn—examined by Mr. McCreight. In January, 1863, he applied to the city Council for leave to bring water into the city from Spring Ridge; had since purchased the land, laid the pipes and brought the water to Government street; he believed that they could supply the city every day in the year with 100,000 gallons daily: he could pump 120 gallons in 55 seconds, 24 hours a day, 9 months in the year; he had pumped that proportion during the dry month of August for three or four days at once, without any sensible diminution in the amount of water; the cost of the works to the 1st March was about $20,000, and they proposed to lay out in the first year about $10,000 more. Witness stated he had been engineer for Mr. John Penn, of Greenwich, and had erected engines on board several ships of war; also in this city and on Fraser River for the last four years; believed there was a natural basin in the Ridge, as they found on one side a bank of clay and on the other the bed rock pitching in, and between these lies a large bed of sand and gravel.

The Committee here adjourned till Wednesday next at 1 p. m.

LEGISLATIVE COUNCIL.

THURSDAY, March 24.

Present—The Hon. D. Cameron (Chief Justice), Hon. R. Finlayson, Hon. A. Watson.

THE TELEGRAPH BILL.

The bill was sent up as passed by the House of Assembly, and went through the first reading.

SUPPLY.

This bill was also sent up and read the first time.

REPEAL OF STAMP ACT.

His Honor the Chief Justice stated that this Act repealed the former Stamp Act, which had been found to be unnecessary and was never enforced. He thought that stamps on receipts, notes, &c., would be highly inconvenient to commerce, and if stamps were rendered necessary at all we should prefer seeing them limited to legal documents. The bill went through the second reading and the rules of the House being suspended it passed a third reading and was ordered to be sent up to His Excellency for approval.

BANK NOTE BILL.

The House went into committee of the whole upon this bill, Hon. R. Finlayson in the chair.

Hon. A. Watson said this was a very important bill. It had been before the House a long time, and it was expedient that it should now be carefully considered. The object of the bill is to check the unauthorised issue of bank notes within the colony, and to restrict the amount of legitimate issues. Bank notes were in circulation without any authority whatever. Experience showed that paper currency, when issued by responsible bankers, is undoubtedly attended with advantage to the community, affording an easy method of expanding the capital of a country to meet the requirement of an increasing trade, and thus by cheapening capital, enhancing the profits of every branch of trade. But it was very desirable under the present position of the colony to provide that such restrictions be not placed upon the issue of paper money as would check the expansion of capital at a time when it is so much required, and on the other hand to guard against ridding the country of a metallic medium. He considered it advisable when legislating on the subject to provide against such a dilemma as the issue of paper money absorbing all the coin, when the latter could not be obtained from San Francisco. The efforts of prudent bankers would of course be always directed against such an occurrence, but it was necessary to protect the trade and industry of the country from the ruinous consequences which might ensue from the speculations of imprudent capitalists. He would therefore move for an increased metallic reserve to provide for paper currency.

Some verbal amendments were introduced by the hon. member and agreed to.

The hon. A. Watson then observed that he wished to increase the amount of the reserve from one third to one-half of the paper currency in circulation.

The Chairman—It might have the effect of creating a monopoly in favor of capitalists.

Mr. Watson said that a reserve of one-third had been found sufficient in England and elsewhere, but we were differently situated here and it was advisable to retain as much specie as possible in the colony. At home they could always replace their coffers from the mint, but we had no mint here and were in an isolated position. The uncertainty of our commercial relations with the country whence nearly all our coin is obtained would appear to offer reasons for not blindly accepting the laws of countries which are differently situated.

The Chairman said—We should not always be in so isolated a position; he was not prepared without proper consideration to differ from what was the practice in England.

The Chief Justice said it was only necessary to make due provision for securing the public. The question was whether it was not necessary to increase the security, and he thought it might be sufficient to take what was considered proper by the House below. We were in the neighborhood of gold producing countries, and would soon have mints from which coin could be drawn. He should therefore be disposed to side with the hon. Chairman.

The hon. A. Watson said his chief aim was to prevent matters being placed in a position which we should regret to see in case of a monetary pressure, and the metallic currency being found insufficient to meet the paper currency. But whilst an undoubted advantage accrues to the community from a paper currency, an immediate profit is ensured to the persons issuing bank notes. This profit is variously estimated in different countries, being in accordance with the rate of interest or the value of money. Thus in a country when the rate of interest is six per cent. per annum the average profit on the circulation of bank notes has been estimated at two per cent. Hence it may be fairly inferred that the gain to the capitalist in this colony, where the value of money ranges about eighteen per cent, would be large in proportion. The temptation held out to capitalists to over issue is accordingly great.

The Chief Justice said he was not opposed to the amendment, but the question was simply was it expedient to retain one-half of a metallic reserve instead of one-third.

The Chairman said he was willing to accede to what would protect the public, provided it did not impede legitimate commerce.

Mr. Watson said the banks here, at present, he believed, retained more than one-half of a metallic reserve.

The motion was agreed to.

Mr. Watson then moved that clause IV. read as follows:

"That the proportion of specie to be kept in reserve within the Colony by any bank issuing notes under this Act, shall not at any time be less than one-half the amount of notes in circulation."

Mr. Finlayson moved that the reserve be one-third. Carried.

Some more verbal amendments were then agreed to.

Mr. Watson moved the addition of a clause restricting the issue of any bank note under $5. Agreed.

Also a clause providing that all penalties under this act be recovered in the Supreme Court in the name of the Attorney General, or other officer for the time being having authority. Agreed.

The committee here rose and reported progress, and the President having resumed his his seat.

The bill was ordered to be engrossed and brought up for final reading at the next sitting of the Council.

BARRISTERS AND ATTORNEYS BILL.

The House went into committee on this bill. The Hon. A. Watson in the chair.

The bill passed with the following amendment by the Chief Justice;

That the words "Where the common law of England is law of the land," as applied to the admission of Colonial Barristers to practise in the Courts of this Colony, be expunged:

And the addition of the following clause; Provided always that nothing herein contained shall extend to take away, alter, or prejudice the right of any person acquired prior to the passing of this act, but such proceedings may thereupon be had and taken, and any such right dealt with in all respects by the said court or the judge thereof, as if this act had not been passed.

The committee rose and reported progress. The bill was ordered to be engrossed and brought up for third reading.

Council adjourned to Wednesday next at 2 p.m.

EQUINOCTIAL GALE.—Yesterday the first of the equinoctial gales set in from the westward. The squalls during the day were very violent, threatening to destroy the arches which have been erected to welcome the new Governor. Many of the house decorations were blown away, and it is well the reception did not occur yesterday, as few of the staffs could have sustained the bunting which they are destined to display on this auspicious occasion.

GREAT BENEFIT for those going to the Cariboo Mines.—The best and finest India Rubber Coats ever imported to this colony, only weighing 1 lb., and India rubber Pantaloons and Blankets; also, Waterproof Caps, Silver's make, London, at A. J. Brunn's Clothing, Hat, and Shirt Emporium, Government street, next door to the Bank of British Columbia, Victoria, V. I.

WHAT THE "JAPS" THINK OF US.

Every one remembers the Japanese Ambassadors who last year visited France and England. On their return home they hastened to arrange their notes, which have just been printed at Jeddo. A Frenchman on seeing this book, translated and sent us the introduction, which we give word for word, persuaded that it will be interesting to our readers:—

HISTORY OF THE TRAVELS OF THE JAPANESE COMMISSIONERS IN EUROPE—PUBLISHED AT JEDDO ON 28TH MARCH, 1863—BY FOU YAH.

Introduction:—The races of the West all closely resemble each other. They all clothe themselves in the same manner, eat with the same ceremonies, &c. They differ little in the darkness of their complexion and color of their hair. Their arms are the same. The French appear to value them more than their neighbors, and we were told that they are more skilled in their use. In truth, the movements of the French soldiers do appear more lively and active than those of the soldiers of the other nations. Their sabres are much inferior to ours, but they do not appear to attach much importance to them, and prefer fire-arms. We never saw sword or spear exercise; to make up for this they attach a sort of sabre to the end of their guns and use it where we use the spear. The rites or ceremonies appear very light, although it would be very wrong to say there are none; but the most striking thing about them is that these ceremonies are almost the same for personages of rank as for ordinary men. They lift their hat and make a slight movement of the head, such is the salutation for every one. It would appear there is but little respect for, or distinction of class.—Thus, in our audience with the Emperor of France and other Sovereigns, their Majesties were not separated from us by any veil. The consort of the Sovereign was even there, neither veiled nor concealed, seated on a seat as high as that of her husband. Notwithstanding this, the nobles were extremely polite in France; even too much so sometimes, especially at dinner, where, in order to please them, it was necessary to eat and drink more than was agreeable. As to the other men, they are less polite. The greater number started at and touched us, and passed remarks on us in our hearing; nor did they conceal that they thought us very ugly. Of the women, some are very handsome—for example the Empress. They are, however, in general, less so than in America, Their noses are sometimes higher than those of the men—they walk like men, taking long steps; look men in the face, and laugh a great deal; sometimes very loud. In order to make themselves look taller they make their bonnets stick above their heads. Even the modest women dance a great deal. They hook on to the arms of the men; and there are days when every man has a woman hanging on to his arm. Are they their own wives? We think so. In general the women enjoy great liberty. What we say of the women of France applies to those of all Europe. The latter, with the exception of the Dutch, are inferior to the French. We will not speak of their costume; it is impossible to understand it. In the evenings it is not always decent. The men are stiff and a little proud or rough. However, the respectable as well as the lower classes carry no arms. A respectable man seldom carries about him any mark of his rank. It would seem that all classes—even the upper ones—frequent *cafes*. Even the superior officers go to the theatre for which they have a great passion. We have regretted more than once not having understood what was said there. Almost every one was armed with opera glasses, which were often directed at us, doubtless through absence of mind. The shopkeepers are haughty, and saluted us only in a very middling degree. They did not like us to derange the articles in their shops much, and doubtless reckoned on our buying a great deal from them. We were able to see that the mechanics and useful tradesmen were more respected than the mere shopkeepers. The articles of diet are almost the same as with us; however, they eat but little rice and fish, but, on the other hand, much meat and pastry. We were extremely disgusted at Paris and elsewhere to see beef and mutton still bloody, exposed in the most public shops. To eat beef is often medicinally useful, but why present it to the eyes of all the world? Is it not sinful thus to despise so useful an animal? It was truly shocking to several of our party. However, the cookery of the French is good, and their wine is excellent. The wine is the best thing they have, and does not yield in anything to our "saki" (a drink made from fermented rice.) The dress of the men appears at first ridiculous and curtailed; however, it must be convenient and economical. In Paris as in London, every one walks very fast, as with us when there is a fire. Their houses are so high that they must fall on the first earthquake—they appear, nevertheless, to be proof against fire. We will speak of the marvellous things we saw in the order in which we saw them.

CAMP FOLLOWERS.—The native cooks, washer-men, grooms, tent-pitchers, and the hundred other natives who follow the soldier whenever he goes into camp—each individual native taking with him his wife and children, and often his father, mother, uncles and brothers—exceed all belief; they seem to be more numerous than the sands of the sea. Nor is the evil of this immense following confined to the camp-followers themselves, for these, in their turn, must have their followers. In addition to the commissariat that feeds the troops, each corps must have a large bazaar establishment to feed its followers. The extent and ramifications of these hangers-on may be in some degree conceived when I mention that during one of our campaigns in Affghanistan, although the followers were reduced to the lowest possible numbers, there were European regiments that counted no less than seven native camp-followers to every effective English soldier. Many old Indians will say that our men could not dispense with these native servants, and that if they attempted themselves to do the menial works of the barracks their health would suffer. Now, I am an old Indian, and have seen service in the Punjab, in Affghanistan, and in other countries; and I altogether deny that our English soldiers would suffer, even if deprived of all their native servants to morrow. Surely our men are not more helpless than Frenchmen! And I have seen a brigade of the latter take the field for months in the burning plains towards the frontier of Morocco—a far hotter climate with far fewer resources than any I have marched through in India from Peshawur to Calcutta—not having with them more camp followers than they would have in Europe. The average number of non-combatants with a French column in the field of Algeria is less than 1 per cent. of the soldiers present, and these are nearly all sutlers or shopkeepers who are allowed to follow the troops and sell odds and ends of comfort to the men. In our Anglo-Indian camps, the number of camp followers is something like 700 or 800—I have known it as high as 1100—per cent more than the fighting men! In other words, where the French in Algeria take one camp follower in the field, we take from 700 to 1100.—*All the Year Round.*

INVIGORATE THE SYSTEM.—Vigorous digestion and pure bile produce nutritious blood, and nutritious blood a healthy frame. Does the victim of a dispeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and other fluids of the body purified?

DR. HOSTETTER'S STOMACH BITTERS.

will accomplish this desirable revolution in the system regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and brings the whole machinery of vitality into vigorous and healthful play.—Sold by all Druggists and dealers everywhere.

HOLLOWAY'S PILLS PURIFY THE BLOOD.—When the cause of disease is seated in the blood, nerves, stomach, liver or bowels, no treatment will be found so effective, no medicine so valuable, as these purifying, alterative and aperient Pills. Innocent in their nature, they never can do harm to the weakest constitution. Cleansing and invigorating in their effects, they produce an immediate amelioration of many of the most painful and most dangerous symptoms which can afflict the human frame. Holloway's Pills are reliable remedies. In multitudes of cases where the usual round of prescriptions had been vainly tried, and death itself seemed imminent, Holloway's Pills have acted marvellously in arresting the disease and gradually restoring health. mh21

HOW TO LIVE AND HOW TO DIE.

It is an easy thing for a sick man to drug himself to death with acrid mineral purgatives; but it is equally within his power to recover health and strength, by resorting to the only cathartic which restores the disordered functions of digestion, secretion and expulsion to a healthy condition, without enfeebling the system in performing the cure. In Bristol's Sugar-coated Pills he will find this grand desideratum, sought for and lodged for from time immemorial, in vain They are commended to the dyspectic, the constipated, the bilious, the rheumatic, the dropsical, the debilitated—in short, to all who suffer from any disease proceeding from or connected with the stomach, the liver or the bowels, as a means of immediate and permanent relief. In all disorders of a chronic character (especially in Rheumatism. Liver Complaint, Dropsy, and Neuralgia), or where sores or eruptions are a feature of the disease, Bristol's Sarsaparilla, for enriching and purifying the blood, may be used with infinite advantage in combination with the pills. They are put up in glass vials, and will keep in any climate. Both remedies are for sale by prominent druggists throughout the world.

BE WISE BY TIMES!

Do not trifle with your Health, Constitution and Character.
If you are suffering with any Disease for which
HELMBOLD'S EXTRACT BUCHU
is recommended,
TRY IT! TRY IT! TRY IT!
It will Cure you, Save Long Suffering, Allaying Pain and Inflammation, and will restore you to,
HEALTH AND PURITY,
At Little Expense,
And No Exposure,
Cut out the Advertisement in another column, and call or send for it.
BEWARE OF COUNTERFEITS!

MISCELLANEOUS.

DR. RADWAY'S PILLS.

ARE THE BEST PURGATIVE PILLS.
ARE THE BEST PURGATIVE PILLS.
ARE THE BEST PURGATIVE PILLS.
NO STRAINING.
NO GRIPING.
NO TENESMUS.
NO PILES.
NO FALSE CALLS TO THE WATER CLOSET.
BUT A BRISK AND THOROUGH EVACUATION FROM THE BOWELS IS ALWAYS SECURED.

Newly Discovered Principles in Purgatives.

Dr. Radway's Pills are the best Purgative Pills in the world, and the only Vegetable Substitute for Calomel or Mercury ever discovered. They are composed of

VEGETABLE EXTRACTS FROM ROOTS, HERBS, PLANTS, GUMS, SEEDS, FLOWERS, BARKS, FRUITS AND WEEDS, PREPARED IN VACUO.

One grain of the extract of the medicinal properties of Radway's Pills, possess a greater curative power over disease than a thousand of the crude and inert materials that enter into all other pills in use. These Pills are compounded of the active medicinal properties of the Roots, Herbs, Plants, Flowers, Gums, &c. of which they are composed. One dose will prove their superiority to all other pills They

PURGE, CLEANSE, PURIFY, HEAL,
SOOTHE, CALM, STRENGTHEN,
INVIGORATE,
And REGULATE THE SYSTEM.

Their Great Combinations.

They are Aperient, Tonic, Laxative, Alterative, Stimulant Counter Irritant, Sudorific.

AS EVACUANTS,

They are more certain and thorough than the Drastic Pills of Aloes, or Croton or Harlem Oil, or Elaterium; and more soothing and healing than Senna, or Rhubarb, or Tamarinds, or Castor Oil.

IN SUDDEN ATTACKS OF

Inflammation of the Bowels or Stomach, Liver, Spleen, Pancreas or Kidneys, Bilious Cholic or Bilious Fever, Erysipelas or Congestive Fever, Small Pox, Measles, or Scarlet Fever,

SIX TO EIGHT OF DR. RADWAY'S REGULATING PILLS WILL PURGE THESE DISEASES FROM THE SYSTEM IN SIX HOURS.

One dose of Dr. Radway's Pills will cleanse the intestinal canal, and purge from the bowels all offending and retained humors, as thoroughly as lobelia or the best approved emetic will cleanse the stomach, without producing inflammation, irritation, weakness,

STRAINING,

or other unpleasant symptoms. There are no other purgative pills in the world that will secure this desideratum

BETTER THAN CALOMEL OR BLUE PILL.
BETTER THAN CALOMEL OR BLUE PILL.
BETTER THAN CALOMEL OR BLUE PILL.

AS ALTERATIVES,

They exercise a more powerful influence over the liver and its secretions than calomel, mercury, blue pill, hence their importance in cases of Liver Complaints and Spleen Difficulties, Jaundice, Dyspepsia, Bilious attacks, Headache, &c. In the treatment of Fevers, either Bilious, Yellow, Typhoid, and other reducing Fevers, they are superior to quinine. Their influence extends over the entire system, controlling, strengthening, and bracing up the relaxed and wasting energies, and regulating all the secretions to the natural performance of their duties, cleansing and purifying the blood, and purging from the system all diseased deposits and impure humors.

DR. RADWAY'S PILLS.
ONE TO SIX BOXES WILL CURE

Costiveness,	Jaundice,	Rush of Blood to the Head,
Constipation,	Congst'e Fever,	Obstructions,
Congestion,	Sleepiness,	Dropsy,
Heart Disease,	Gen'l Debility,	Acute Erysipels,
Diseases of Kidney & Bladder.	Dimness of Sight	Headache,

Ship Fever,	Dyspepsia,	Enlargement of the Spleen,
Malign't Fever,	Measles,	Scurvy,
Loss of Appetite,	Melancholy,	Whoop'g Cough
Indigestion,	Hysterics,	Worms,
Inflammation,	Amenorrhœa,	Bad Dreams,
Palpitations,	Fainting,	Pleurisy.
Scarlet Fever,	Dizziness,	
Bilious Fever,	Retention of Urine,	

If afflicted with either of the above named diseases, "one to six" boxes of Dr. Radway's Pills will cure you. By taking a few doses of the common Drastic Pills—that gripe and pinch you when they operate—you may obtain temporary relief; but if you stop taking these imperfect pills for a week or a month, your old complaint returns Now, this is not the method of cure indicated by Dr. Radway's Pills. They make a perfect cure, and the patient will not require any more medicine.

PILES, STRAINING AND TENESMUS,
PILES, STRAINING AND TENESMUS,

Are the results of Inflammation or irritation of the mucous membrane of the bowels, induced by drastic pills—these imperfect pills, instead of being dissolved by the chile, are carried to the lower bowels, and induce a peristaltic movement or evacuation by their irritation—hence the straining, cramps, wrenching pains, piles and tenesmus, and the frequent false calls to the water closet, that patients undergo who take these imperfect pills.

If you would avoid these annoyances, whenever a purgative medicine is required, take a dose of

RADWAY'S REGULATING PILLS.
THEY WILL PURGE THOROUGHLY AND LEAVE THE BOWELS REGULAR.

Persons afflicted with Piles, may rely on a positive cure by their use.

COATED WITH GUM.
COATED WITH GUM.
COATED WITH GUM.

Dr. Radway's Pills are elegantly Coated with Gum, are free from taste or smell, can be taken at all times and on all occasions. No danger will result from colds, if exposed to wet or damp weather after taking these pills.

SIX OF RADWAY'S PILLS

Have secured a vigorous evacuation, in severe cases of Inflammation of the Bowels, Paralysis, &c., after Croton Oil, Harlem Oil, injections and other means completely failed. A dose of Radway's Pills will remove all obstructions, and secure a free passage. Directions for use are inside each box. Price per box, 25 cents. Sold by Druggists, Medicine Dealers, and Storekeepers.

N. B.—Every Agent has been furnished with *fresh* and new made Pills. As each box is enclosed with a Steel Engraved Label, take none others.

RADWAY & CO.,
87 Maiden Lane, New York.

DR. HOSTETTER'S
STOMACH BITTERS.

THE OPERATION OF THIS PALAtable remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties.

Invigorate the System.

Vigorous digestion and pure bile produce nutricious blood, and nutricious blood a healthy frame Does the victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and the other fluids of the body purified?

Dr. Hostetter's Stomach Bitters.

Will accomplish this desirable revolution in the system regulating the secretions and excretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and brings the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.

The best means of imparting vigor to the broken down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

Dr. Hostetter's Stomach Bitters.

Debility, from whatever cause arising, may be cured; strength, in whatever manner it may have been wasted, may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific.

A Word to the Aged.

In the decline of life the loss of vital force consequent upon physical decay can only be safely supplied by some vivifying preparation which recruits the strength and spirits, without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged

Dr. Hostetter's Stomach Bitters,

As an invigorant and restorative, immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits.

For Females.

Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervious headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and enlightens the depressed mental powers, as well as strengthens the body, and its use is never followed by any reaction.

Female Aid Association.

Report for the Year Ending Feb., 1864.

PATRONESS............LADY DOUGLAS.
PRESIDENT............THE MAYORESS.

GENERAL COMMITTEE AND COLLECTORS:

Mrs. Harris,	Mrs. Pidwell
Mrs. Cridge,	Miss Reid,
Miss E. Cridge,	Mrs. Reinhart,
Mrs. Guild,	Miss Thorne,
Miss Harris,	Mrs. Trutch,
Miss Mackenzie,	Mrs. C. Woods,
Miss Nagle,	Mrs. R. Woods.
Mrs. Pearse,	

MANAGING COMMITTEE:

Mrs. Harris,	Mrs. Pidwell,
Mrs. Cridge,	Mrs. Reinhart,
Mrs. Guild,	Mrs. C. Woods,

Mrs. R. Woods.

This Association has to acknowledge the favorable reception it has met with from the public, and to report,

That by permission of the Board of Directors a Ward has been fitted up at the Royal Hospital, into which four patients have been admitted during the past year. Eight females have received assistance as out-door patients.

The Committee have the satisfaction of knowing that the alleviation of suffering and distress through the agency of this society has been great.

The Building Fund, now amounting to $984 25, the Committee hope soon to erect a suitable building for the objects of the institution, and earnestly draw the attention of the benevolent to their need of a piece of ground for that purpose.

J. G. SHEPHERD, Hon. Treas.
E. CRIDGE, Hon. Sec.
Victoria, March, 1864.

V. R.

PROCLAMATION.

BY HIS EXCELLENCY, SIR JAMES DOUGLAS, Knight Commander of the Most Honourable Order of the Bath, Governor and Commander-in-chief in and over the Colony of Vancouver's Island and its Dependencies, Vice-Admiral of the same:

WHEREAS, it is expedient to declare that the Harbour of Nanaimo shall from henceforth be a PORT OF ENTRY AND CLEARANCE for Ships and Goods until otherwise determined by proper authority; Now THEREFORE I, SIR JAMES DOUGLAS, Governor as aforesaid, do hereby publish, declare and proclaim that the Port of Nanaimo shall include all the space of water Southward of a line drawn from Harswell Bluff, the North Point of Departure Bay, to Entrance Island and Northward of a line running due East from the Northern Entrance of Dodd Narrows to the West Coast of Gabriola Island, as shown in the Admiralty Charts;

That the aforenamed Port of Nanaimo is and shall be, until otherwise determined by proper authority, a Port of Entry and Clearance for Ships and Goods, save and except as to the payment of any fees, licenses and dues which may be hereafter directed by proper authority.

Issued under the Public Seal of the Colony of Vancouver Island, at Victoria, this twelfth day of March, in the Year of our Lord One Thousand Eight Hundred and Sixty-four, in the Twenty-Seventh Year of Her Majesty's Reign.

By His Excellency's command,
WILLIAM A. G. YOUNG.

GOD SAVE THE QUEEN!

PUBLIC NOTICE.

TENDERS ARE REQUIRED for the conveyance of Mails, by a Steam Vessel, for a period of nine months, commencing on the 1st April next, between Victoria and Comox, once a month; and Victoria and Nanaimo twice a month, calling at Cowichan, Maple Bay, and Salt Spring Island, both going and returning. The days of arrival and departure subject to the control of the Government. The said steamer to be capable of carrying cattle and to be at liberty to call at other places than those named. Payment to be made monthly.

The lowest tender not necessarily accepted. Tenders to be addressed to the POSTMASTER, on or before the 28th inst.

By order,
HENRY WOOTTON.
Postmaster.

Post Office, Victoria, V. I., March 18, 1864.
mh18

VANCOUVER ISLAND PUBLIC NOTICE.

ATTORNEY GENERAL'S OFFICE, 5th February, 1864.

THE ACTING REGISTRAR OF JOINT Stock Companies calls the attention of the various companies registered in Vancouver Island to the following rules, which should be complied with by such companies, without delay; inasmuch as the omission of observance of these rules hitherto has arisen most probably from want of knowledge of their existence, none of the delinquents will be proceeded against for the past penalties; but notice is hereby given, that within 30 days after the publication of this advertisement, the said penalties will have to be enforced unless the requirements of the statute are complied with.

REQUIREMENTS OF THE STATUTE.

1st The name of the Company shall be painted or affixed to the outside of the office.

2d. Notice of the situation of the registered office shall be given to the Registrar.

3d A register of Shareholders to be made pursuant to the 6th and 17th sections of the 19th and 20th Vic. cap 47, and shall be kept in the office of the company, and a copy authenticated by the seal of the company forwarded to the Registrar's office.

4th If any special resolution is passed by the company under the 34th section of the same Act, a copy of such special resolution must within 15 days from its passage be forwarded to the Registrar.

5th If any increase of the promised capital of any company is made by a resolution of the company, notice of such increase must be given to the Registrar within 15 days of the passage of the resolution authorizing any such increase.

GEORGE HUNTER CARY,
Acting Registrar of Joint Stock Companies.

Caution to Mariners.

LIGHTHOUSE BOARD OFFICE, VICTORIA, V. I., March 8th, 1864.

THE CHIEF LIGHTKEEPER AT THE Race Rocks Lighthouse having reported that vessels recently inward bound from England, have passed dangerously close to the Race Rocks, when on their way to Victoria, the attention of shipmasters is called to pages 15 and 16 of the "Vancouver Island Pilot," by Captain George Henry Richards, R. N., from which the following is an extract.

"The Tides mong the Race Islands run from three to six knots, and during bad weather heavy and dangerous Races occur; the outer Rock should be given a berth of a mile, at which distance from forty to fifty fathoms of water will be found; it may, however, if necessary, be rounded at a less distance, the most off-lying danger being a rock with five feet on it, lying S E by E from the Great Race, distant four cables.

"Attention must be paid to the set of the tides; the ebb runs almost directly from the Haro and neighboring Straits towards the Race Islands, and a sailing vessel, unless with a commanding wind, is recommended to give them a berth of more than a mile, and to steer N E by N for three or four miles before she bears up for Esquimalt Harbor.

By order of the Board,
(Signed) EDMUND HOPE VERNEY,
mh11 1m Sec. to the Lt. Ho. Board.

TREASURY NOTICE.

Trade Licenses, 1864.

NOTICE IS HEREBY GIVEN THAT the Assessment Roll for the Half-Year, commencing 1st January, 1864, was finally passed by the Court of Revisors on the 16th instant, and that the amounts so assessed are now payable into the Treasury. ALEXANDER WATSON, Treasurer.

Vancouver Island Treasury, 24th February, 1864. fe26

IN THE MATTER OF A BILL INTITULED An Act to grant the right to construct a Telegraph Line connecting Victoria with the Telegraph system of the United States, and for other purposes.

NOTICE IS HEREBY GIVEN THAT IT is the intention of the undersigned to apply to the Legislature of Vancouver Island for a Bill enabling the President of the California State Telegraph Company and his successors to lay down a line of Telegraph over the public lands and highways which may be necessary to connect a Telegraph cable from Washington Territory with Victoria between two points on the coast, viz: Nanaimo and Sooke, and to lay the said line of Telegraph to Victoria from the point selected, and to lay the same line over any private land intervening, upon obtaining the consent of the owners of such land in writing, and to authorize such President and his successors in office, to purchase the right of way and all lands necessary for the purposes of the Company. The copies of the bill will be deposited with the Clerk of the House on Monday, the 29th day of February, 1864.

THE GREAT CURE

For all the diseases of the

LIVER STOMACH & BOWELS

Put up in Glass Phials, and warranted to

KEEP IN ANY CLIMATE.

These Pills are prepared expressly to operate in harmony with the greatest of blood purifiers, BRISTOL'S SARSAPARILLA, in all cases arising from depraved humors or impure blood. The most hopeless sufferers need not despair. Under the influence of these two GREAT REMEDIES, maladies that have heretofore been considered utterly incurable, disappear quickly and permanently. In the following diseases these Pills are the safest, the quickest, and the best remedy ever prepared, and should be at once resorted to.

Dyspepsia or Indigestion, Liver Complaints, Constipation, Headache, Dropsy, Piles.

For many years these PILLS have been used in daily practice, always with the best results, and it is with the greatest confidence they are recommended to the afflicted. They are composed of the most costly, purest, and best Vegetable Extracts and Balsams, such as are but seldom used in ordinary medicines, on account of their great cost, and the combination of rare medicinal properties is such that in long standing and difficult diseases, where other medicines have completely failed, these extraordinary Pills have effected speedy and thorough cures.

Only 25 Cts. per Phial.

THE SUFFERER'S BEST FRIEND!

HOLLOWAY'S PILLS.

All Disorders affecting the Liver, Stomach, and Bowels.

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels. In all diseases it is of primary importance to set the stomach right. These pills are purifiers, alteratives, and strengtheners of the stomach. They may be taken under any circumstances. Though powerfully tonic and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

Weakness and Debility, Nervous Irritability.

The wholesome effect exercised by these admirable Pills over the blood and fluids generally is like a charm in dispelling low spirits, and restoring cheerfulness. Their general aperient qualities well fit them for a domestic medicine, particularly for females, of all ages and periods of life. They never betray any disagreeable irritating qualities; they quickly eject all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

To Regain Health, Strength, and Vigor.

Whenever persons find themselves in that state termed "a little out of health," and there are so many causes at work to shorten life, it is necessary that Holloway's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters, but regulate all disordered actions, and strengthen the frame in a most extraordinary manner.

Id Coughs, Colds, and Asthmatical Affections.

These Pills, assisted in their action by rubbing Holloway's Ointment very effectively twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effective remedy for asthma, coughs, colds bronchitis, and influenza. These remedies tranquilize the hurried breathing, soothe the irritated air tubes, and assist in dislodging the phlegm which stops up the air passages. This treatment has proved wonderfully efficient in not only curing old settled coughs and colds, but asthma of many years' standing, and even when patients who were in so bad a state as not to be able to lie down on their beds lest they be choked by phlegm.

Derangement and Distension of the Bowels, Flatulency, Diarrhœa and Dysentery.

Any symptoms of the above complaints should be immediately met by appropriate doses of these Pills, according to printed directions; delay may be followed by disastrous consequences. These Pills are a certain remedy for all the ailments of the alimentary canal, they secure the thorough digestion of the food, and act most kindly on the stomach, liver, bowels, and kidneys. As a household medicine they are unrivalled, and should always be at hand.

Very Important, of Costiveness Beware.

Rarely but little notice is taken of costiveness, yet at certain periods it is a sure sign that danger is near. All who are seized with apoplexy and paralysis, have previously suffered from costiveness. In the former case the blood flies to the head, a small vein is ruptured on the brain, and we know the rest. Let wives counsel their husbands and husbands their wives, never to go to bed a second night if the bowels have not been properly moved during the day, particularly if they feel heavy and drowsy. A few gentle doses of these fine Pills will regulate the circulation of the blood, and remove all dangerous symptoms.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Dropsy	Inflammation	Stone and Gravel
Asthma	Dysentery	Jaundice	Secondary Symptoms
Bilious Complaints	Erysipelas	Liver Complaints	Tic-Douloureux
Blotches on the Skin	Female Irregularities	Lumbago	Tumours
Bowel Complaints	Fevers of all kinds	Piles	Ulcers
Colics	Fits	Rheumatism	Venereal Affections
Constipation of Bowels	Gout	Retention of Urine	Weakness, from whatever cause &c., &c.
Consumption	Head-ache	Scrofula, or King's Evil	
Debility	Indigestion	Sore Throat	
	Worms of all kinds		

Sold at the establishment of PROFESSOR HOLLOWAY, 244 Strand (near Temple Bar), London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d, 2s. 9d., 4s 6d, 11s. 22s. and 33s each pot.

☞ There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each Box. oc10

HELMBOLD'S

Genuine Preparation.

HIGHLY CONCENTRATED

Compound Fluid Extract

BUCHU!

A Positive and Specific Remedy

FOR DISEASES OF THE

BLADDER, KIDNEYS, GRAVEL,

—AND—

Dropsical Swellings.

THIS MEDICINE INCREASES THE POWER of Digestion, and excites the ABSORBENTS into healthy action, by which the WATERY OR CALCAREOUS depositions, and all UNNATURAL ENLARGEMENTS are reduced, as well as PAIN AND INFLAMMATION, and is good for

MEN WOMEN, AND CHILDREN

HELMBOLD'S EXTRACT BUCHU,

FOR WEAKNESS

Arising from Excesses, Habits of Dissipation, Early Indiscretion or Abuses, attended with the following Symptoms:

Indisposition to exertion, Loss of Memory, Weak Nerves, Horror of Disease, Dimness of Vision, Universal Lassitude of the Muscular System, Hot Hands, Dryness of the Skin, Loss of Power, Difficulty of Breathing, Trembling, Wakefulness, Pain in the Back, Flushing of the Body, Eruptions on the Face, Pallid Countenance

These symptoms, if allowed to go on, which this Medicine invariably removes, are followed by

Impotence, Fatuity, Epileptic Fits,

In one of which the patient may expire.
Who can say that they are not frequently followed by those "DIREFUL DISEASES,"

"INSANITY AND CONSUMPTION."

Many are aware of the cause of their suffering, but none will confess.

The Records of the Insane Asylums, and the Melancholy Deaths by Consumption,

Bear ample witness of the truth of the assertion. The CONSTITUTION ONCE AFFECTED WITH ORGANIC WEAKNESS requires the aid of medicine to strengthen the system, which

HELMBOLD'S EXTRACT BUCHU

Invariably does. A trial will convince the most skeptical.

Females, Old or Young, Single, Married, or Contemplating Marriage.

In many affections peculiar to Females, the EXTRACT BUCHU is unequalled by any other Remedy, as in Chlorosis or Retention, Irregularity, Painfulness or Suppression of Customary Evacuations, Ulcerated or Schirrous State of the Uterus, Lucorrhœa or Whites, Sterility, and for all complaints incidental to the sex, whether arising from indiscretion, habits of dissipation, or in the decline or change of life as the symptoms above

NO FAMILY SHOULD BE WITHOUT IT.

Use Helmbold's Extract Buchu

For all affections and diseases of the URINARY ORGANS, whether existing in MALE or FEMALE, from whatever cause originating, and no matter of how LONG STANDING. Diseases of these organs require the aid of a DIURETIC.

HELMBOLD'S EXTRACT BUCHU

Is the great Diuretic, and it is certain to have the desired effect in diseases for which it is recommended. Evidence of the most responsible and reliable character will accompany the medicines.

CERTIFICATES of CURES

From eight to twenty years standing, with names known to Science and Fame.

HELMBOLD'S EXTRACT BUCHU

CURES

Secret Diseases

In their last stages; little or no change in diet; at little expense; no inconvenience, and no exposure. It causes a frequent desire and gives strength to urinate, thereby removing obstructions, preventing and curing Strictures of the Urethra, allaying pain and inflammation, so frequent in the class of diseases, and expelling all poisons, diseased and worn out matter. Thousands upon thousands who have been the victims of quacks, and who have paid heavy fees to be cured in a short time, have found they were deceived, and that the "poison" has, by the use of "powerful astringents," been dried up in the system, to break out in an aggravated form, and PERHAPS AFTER MARRIAGE.

CERTIFICATES FROM PHYSICIANS

BOSTON, July 17, 1860.
MR. HELMBOLD—DEAR SIR:—I have used your Extract Buchu in diseases of the bladder and kidneys with the most happy results, and I feel assured I never used an article of medicine that produced a more sure and certain relief for the complaints for which it is recommended
JACKSON F. STEWART, M. D.

CINCINNATI, Oct. 21, 1860.
MR. HELMBOLD—DEAR SIR:—I have used your Extract Buchu in diseases of the bladder, kidneys, gravel and dropsy in my practice, and have witnessed such signal results arising from its use, that I have no hesitation in adding my testimony to the recommendations already given in favor of it.
Very respectfully.
D. WEBSTER HAINES, M. D.

PITTSBURG, May 14th, 1863.
MR. HELMBOLD—DEAR SIR—Having used your medicines for some years in my practice, I can confidently recommend them to be all that you claim for them in dropsy, gravel, and diseases of the bladder and kidneys.
Truly yours. W. F. CLINTON, M. D.

BALTIMORE, April 13, 1857.
MR. HELMBOLD—DEAR SIR:—I am a physician of twenty-five years standing. I have prescribed your Extract Buchu in the various affections of the bladder and kidneys, and they have in all cases given the utmost satisfaction. I confidently recommend them to the profession as invaluable medicines, paramount to all others as a safe and speedy remedy in all cases of sickness for which it is recommended.
Very respectfully yours,
ROBT. F. GREEN, M. D.
